CCNSG SITE SAFETY PASSPORT RENEWAL

Client Contractor National Safety Group

A Nationally recognised course administered through the ECITB designed to raise the awareness of client and contractor employees working at high risk sites – oil & gas, power generation, etc. – across the UK.

The course is run over 1-day and is designed to remind delegates of health and safety practice and common health and safety systems and precautions in place at high risk sites

Delegates are asked to bring their National Insurance Number and their previous CCNSG Site Safety Passport as proof of identify and having attended either a 2-day or a 1-day refresher course in the last 3-years, together with other proof of identify documents such as drivers licence, passport or utility bill. Delegates with a CCNSG passport which has expired and is outside of the renewal period will be required to attend a 2-day course.

At the end of the course successful delegates will be issued with a temporary CCNSG Site Safety Passport - your full CCNSG Site Safety Passport will be posted to your home address by the ECITB/CCNSG SIX WEEKS after the course and is valid for 3-years from its date of issue.

COURSE ASSESSMENT

Delegates are constantly assessed via tutor-led discussions and group exercise and by the end of units multiple choice assessment papers, for which the required pass mark is 16 out of 20 for each of the four assessments.

Session 1	Session 2	Session 3
How much do you know?	Point Of Work Risk Assessment	Scenario
The Impact of an accident	Permit-To-Work	Good Practice
