PERSONAL FALL PROTECTION EQUIPMENT (PFPE) (Selection, Use, Inspection, Maintenance)

This 1/2 day certificated course will provide delegates with an overview of the Work at Height (WAH) Regulations 2005 and then focuses specifically on the identification, selection, certification inspection and correct use of PFPE (harnesses) and its associated and specific support equipment such as lanyards, restraints, and anchorage equipment.

The course syllabus looks in depth at the types and ISO standards of PFPE and steers the delegates towards being able to correctly identify and select the correct equipment for the role task being undertaken, it further provides the delegate with the standards to be applied when inspecting all PFPE and when submitting it for statutory examinations.

Other topics covered include The health related aspects of PFPE use, its correct use, wearing and the anchoring and routing PFPE to provide the safest place of work. Only on the successful completion of the course and its assessments will a certificate of training be issued to the delegate.

COURSE ASSESSMENT

The course assessment entails the:

- Successful completion of a QualPass multichoice question paper
- The successful completion of a range of practical equipment use and inspection related exercises

DELEGATE NUMBERS
